

Wendy II

Boyish

Wendy waits for me
With her hands behind her back
So embarrassed
Glued to my spot
Wendy asks why I act how I've acted

So I tried and tried and tried
To get her off my mind
But she's got talons inside me
I think women are the devil
And I think I've seen why
It always ends this way

Wendy I wanna know
If these things are common
Wendy I wanna know
If something's coming

Wendy I just gotta know
Why everything between us
Is unspoken
But once you've heard the music
Once you know the way
You don't have to say it

But when I start to walk away
She never turns to look
It's how she wants me baby
I'm crawling to her feet
My face is filled with heat
I am disgusted

Wendy I wanna know
If these things are common
Wendy I wanna know
If something's coming
Wendy all of the fire
All the heat of the world
Got it up to my eyes
God I hate that girl
