

Fake Smiles

Boys of Fall

So break me
To help you feel in control
You burn to hide your pain
I've learned to bury it!

I'm sick of wasting time
I find comfort in the dark when
I know your words are twisting me
(So tell me if you wanna)
Keep it up, playing my emotions
You think you hide well and I don't know it?
You think that I misunderstood your games? No, no

Cause we keep doing this again and again

So break me
To help you feel in control
You'll burn to hide your pain
You're cold, you feel nothing
Sick to death of how you've made me feel for so long
I've learned to bury it
Cause I know you never loved me
No you never loved anyone but you
No you never loved me

Fake smiles don't hide your purpose
You took my time like it's worthless
And I wish you could just feel my pain
I don't wanna go on living that way
Spending every minute stuck in the same place
Letting this room hold all of that pain
Cause we keep doing this again and again

So break me
To help you feel in control
You'll burn to hide your pain
You're cold, you feel nothing
Sick to death of how you've made me feel for so long
I've learned to bury it
Cause I know you never loved me
No you never loved anyone but you
No you never loved me

So where do we go when none of it's real?
Everyday, I swallow how I feel
Just to hold on to something you're trying to steal
And I guess I don't know you
So I don't want to let you keep
Any single part of me
Cause you just cut too deep
Felt like it was all for nothing

So break me
To help you feel in control
You'll burn to hide your pain
You're cold, you feel nothing
Sick to death of how you've made me feel for so long

I've learned to bury it
Cause I know you never loved me
No you never loved anyone but you
No you never loved me

I've learned to bury it
