

Worth It

Boys of Fall

There's too much to say tonight
(Dig deep and you'll get) something you may not like
(Does it hurt you like it hurts) me?
We're not the same in what we mean
I think you have got some nerve
And you think I'm not coming clean?
(We missed the point)
And I've been drowning in the dark
And if I stay here in this moment than this whole thing falls a part

(As it creeps inside, and you just can't hide)

Was it worth it? Tell me please
Cause giving up it never seemed so easy to me
If I'm the liar then you're the fake
And we could both just stay forever and drown in our mistakes

And I know it's such a waste of time
And still we learned nothing

So how do we get past the moment?
You just scream and I can't focus
And this is it, it's what you get
Too far gone, forever hopeless

(As it creeps inside, and you just can't hide)

Was it worth it? Tell me please
Cause giving up it never seemed so easy to me
If I'm the liar then you're the fake
And we could both just stay forever and drown in our mistakes

Does it end? If what keeps us here is the guilt we share, it's what we get
Do you know that the past few years I don't feel like I know you at all?

(That the past few years I don't feel like I know you at all)
(And if we run away, then this won't ever change)

I held my hands out begging for you
I watched it all fall apart as your eyes left the room
You took the best of me and buried it too
And nothing you say could change what you do
