En garde and prêt, 〇〇 〇〇〇〇 〇
〇〇 〇〇〇 〇〇〇 〇〇, now, it's my turn

En garde and prêt
Before the curtain starts
Enjoy the most intense tension
Now, it's my show time

As I was walking
Ask me if I think I'm in the wrong direction
Did you take another path?
Somebody tell me the answer (Oh, yeah, yeah)
I'm ready to run
To wander around
I had a long way to go

Actually, fear tickles my eyes
I'm scared by the rattle
I'm just singing for you
Don't be so emotional, I'm en garde

We don't break (Break), go way (Away)
Smile as if it's nothing
An irretrievable night
The chain of fate
Back off if you're not confident
If you can't enjoy it, give it, give it up
I can't stop it for you
Ready, set and go (Look at me now)

En garde and prêt
Before the curtain starts
I feel the most intense sensation
Now, it's my turn, yeah

Unpredictable, pleasing choices
It's interesting 'cause I can't see it
Nervousness makes me laugh
Sometime like my future
Some things you can't hide even if you hide them
Like cough and my heart and my passion
Stretch for one time and run, I'm going up

Standing clumsily
Like a lost child
I'm just singing for you
Burrry your feelings, I'm en garde

We don't break (Break), go way (Away)
Smile as if it's nothing
An irretrievable night
The chain of fate
Back off if you're not confident
You can't enjoy it, give it, give it up
I can't stop it for you
Ready, set and go

With a shy breath
Ever since you called my name, I've been (I've been)
The one who doesn't change
'Cause in every future I want
With no failure, there's always your spot
Woah-oh-oh, yeah

An irrelevant ending, making an ending
A pain ready to endure
You should accept it 'cause there's the wind
I feel like I'm continuing to run, an autobahn called you
Complete and game over, never mind, the sign is too narrow
I won't do it, put your eyes on me
Whatever happens to me

We don't break, go way
Smile as if it's nothing
An irretrievable night
The chain of fate
Back off if you're not confident
If you can't enjoy it, give it, give it up
I can't stop it for you
Ready, set and go (Look at me now)
