

Funeral

Boys World

I don't get what I want from you
Sleep better when I'm next to you
Telling myself I'm bulletproof
No armor
Ya I deny the truth

Gonna miss waking up with you
And never leaving when I know I should
This time I swear to god I'm through

Dressed in black
Can't go back
I can't do this anymore
Last goodbye
Going ghost
You're a body with no soul
Too much hurt
Time to bury this relationship (bury this relationship)

Had a funeral for you in my head 'cause you're dead
Yeah it's dead now
No more fucking with my head now
Leave your messages unread now
Had a funeral for you in my head 'cause you're dead
Yeah it's dead now
No more fucking with my head now
Leave your messages unread now

Said we were good and I believed it
That skin on skin it kept me breathing
Felt so alive but now I'm grieving
Six feet under
There's nothing left of us

Gonna miss making up with you
And never leaving when I know I should
This time I'll be my own ride home
I'll be my own ride home

Dressed in black
Can't go back
I can't do this anymore
Last goodbye
Going ghost
You're a body with no soul
Too much hurt
Time to bury this relationship (gotta bury you)

Had a funeral for you in my head 'cause you're dead
Yeah it's dead now
No more fucking with my head now
Leave your messages unread now
Had a funeral for you in my head 'cause you're dead
Yeah it's dead now
No more fucking with my head now
Leave your messages unread now

Dressed in black
Can't go back
I can't do this anymore
Last goodbye
