

Touched By An Angel

Boys World

Mm, yeah

Top choice, so sweet, what a visual
I read your thoughts, so subliminal
If looks could kill you'd be criminal
But I know what you've been doin', you've been doin' lately

Love me, love me then you make me, make me
Feel like, "Why am I under-appreciated?"
Love you, love you, but if I can't trust you're gonna treat me right
Then I'ma say goodbye

You might lose the light of your life
'Cause you don't know you've been touched by an angel
Look real close, might be the last time
'Cause you don't know you've been touched by an angel

Every day, every night you've got heaven here right by your side
Every day of your life, don't forget you've been touched by an angel

We go through our ups and downs, only natural
But you've been getting way too comfortable
We could go from having all of this to none at all
You on cloud nine now, my baby, but you gonna fall

Love me, love me then you make me, make me
Feel like, "Why am I under-appreciated?"
Love you, love you, but if I can't trust you're gonna treat me right
Then I'ma say goodbye

(You might) You might lose the light of your life
'Cause you don't know you've been touched by an angel
Look real close, might be the last time
'Cause you don't know you've been touched by an angel

Every day, every night you've got heaven here right by your side
Every day of your life, don't forget you've been touched by an angel

(Touched by an angel)
Count your, count your, count your, count your, count your, count your bless
in's, baby
Count your, count your, count your, count your, count your, count your bless
in's, baby

You might lose the light of your life
'Cause you don't know you've been touched by an angel (You don't know)
Look real close, might be the last time (The last time, the last time)
'Cause you don't know you've been touched by an angel

Every day (Every day), every night (Every night) you've got heaven here right
by your side (By your side)
Every day of your life (Hey), don't forget you've been touched by an angel

Touched by an angel, baby (You've been touched by an angel)
Touched by an angel, baby (Oh)
Touched by an angel, baby

You don't know you've been touched by an angel
