

# Breathe in, Bleed Out

BoySetsFire

Boring forced and sterile became a cause unique  
False martyrdom enslaving through secondhand critiques  
Bridge gaps to leave the wrong notes make our standards weak  
Placing blame on those around you living out your cheap fallacies

Breathe in, bleed out  
The wolves will hunt, the sheep have no doubts

Fundamentals missed and misguided in broken missives sent  
A shit show of pallid tidings a lost voice with no repent  
Thin veils hide your true thoughts the message clear  
A dead legacy of the insincere a deep fetish of ancient fears

Breathe in, bleed out  
The wolves will hunt, the sheep have no doubts  
Breathe in, bleed out  
Breathe in, bleed out

The wolves will hunt, the sheep have no doubts  
In slaughtering angels the truth will come out

Run to the nest, burn out the lies  
The fold will disperse, the king will die  
Run to the nest, burn out the lies  
The king must die  
Bleed out

Breathe in, bleed out  
The wolves will hunt, the sheep have no doubts  
Breathe in, bleed out  
Breathe in, bleed out
