

## Far From Over

BoySetsFire

Lambs to the slaughter we live our own lies  
Disseminate weakness to further survive  
Crave to be free, system of filth, put up a fight,  
fall further still  
Claws dig in deeper, the struggle ensues,  
an addict, despair drives the...  
Instinct to kill

It's the same lie... one last time, but this is far from over

Self important inadequate life  
Weak blind inheritance marching in line  
Reckoning comes now to feed on the dead  
(Awaken!) To start over again  
Crave to be free, system of filth, put up a fight,  
fall further still  
Claws dig in deeper, the struggle ensues,  
an addict, despair drives the...  
Instinct to kill

Yeah I'm still fucking angry, you're still predictable  
Nothings changed but the titles  
The game stays untenable  
You can only take it so long  
Destruction eminent failure so strong  
Neuroses to feed dark deeds to fulfill  
Fuck apologies we eat what we kill
