

# Blurry Nights

BoyWithUke

You said that you love me  
But you told a lie  
Outside you're lovely  
But I've seen inside  
And all of your friends told me  
Time wasn't right

You go too slow  
You stay so cold  
I speak my mind  
You still say no

It's blurry nights  
That haunt my mind  
Don't wanna find out  
Might just cry  
I might have tied myself up high  
And just let go  
I'll touch the sky for you  
It's blurry nights I can't get through  
You told me lies I thought were true  
But I'll get over you

Two things on my birthday  
I don't want a cake give me a Sunday  
Where I don't think of getting hanged  
I don't wanna play just give one day  
Where I don't think of getting played  
I'm a sensitive guy with no touché  
I done fucked up  
On my plate  
I got plenty of problems  
It's too late

It's blurry nights  
That haunt my mind  
Don't wanna find out  
Might just cry  
I might have tied myself up high  
And just let go  
I'll touch the sky for you  
It's blurry nights I can't get through  
You told me lies I thought were true  
But I'll get over you

You go too slow  
You stay so cold  
I speak my mind  
You still say no

It's blurry nights  
That haunt my mind  
Don't wanna find out  
Might just cry  
I might have tied myself up high  
And just let go  
I'll touch the sky for you

It's blurry nights I can't get through  
You told me lies I thought were true  
But I'll get over you
