

Help my dentist is evil

BoyWithUke

Alright, if y- if you can look at your... in the X-ray you could see a little dark spot on... on your teeth here, yeah, so, t- that's a hole and we're gonna need to- drill and... fill it up, because you have a cavity. Uhh, I don't know what you've been doing, if you've been brushing your teeth or anything, but um... yeah, we're gonna need to... do stuff on that, so...

How is that possible?

I've been brushing teeth since elementary school

What do you mean I have a cavity in my teeth?

I mean exactly what I mean

You haven't cleaned your teeth since you were thirteen

And, honestly, that's fucking nasty

Your mouth's been looking really red-y

Fucking fatty

You should lay off the ice cream

Before I pull up to your addie

Your mouth is worse than my dog's anus

Its cousins love talking

Alabama, STD, siblings fucking with one another

And there's so many things we could do to combat all the cavities

You can't deny the fact that your teeth look like swiss cheese

Swiftly, all your teeth will be extracted from your mouth

Oh, boy, so painfully

How is that possible?

I've been brushing teeth since elementary school

What do you mean I have a cavity in my teeth?

Everything is fucking stupid, I can't get my mind around it

Found it rather odd that we look lost without it

Talk about the analytics, feeling rather nihilistic

You could just fix it

Richard Nixon did it, but he had his critics

With my teeth, with my teeth

How can it be with my teeth?

With my teeth, with my teeth

How can it be with my teeth?

Oh God, no, no, no!

(Painful screaming)

(Laughing)

Oh God, that's too good
