

## Never Ever 3

BoyWithUke

It will never happen  
That's why I'm down and rappin'  
I read that I'm whippin' a whip  
At my problems on my phone, my digital napkin  
Getting down with bullets of  
Negative thoughts in my brain  
When it's done I feel great  
And then there was none

Yeah, it will never happen  
That's why I'm down and rappin'  
But I still wish it would happen  
But as you know, I'm still goin' rappin'

So here we go, right into the zone  
Let me list a couple things you should know  
Got things that happen that are just for show  
But that's off topic, now into the flow  
Getting grades easily, good grades specifically  
Getting along with your tune mates on anything  
Finding a someone to talk to while smoking  
We drivin' ten minutes without my best roommate

(Shit)

That were just five things that will never happen  
One thing for sure I will never get caught lacking  
Snacking on restaurants, working weed whacking  
Cause I'm rackin' nothing, yeah I'm not bluffin'

I really want things to go as they seem  
But that's just my dream  
I recently learned this, I do it on purpose  
I regret my first kiss

It will never happen  
That's why I'm down and rappin'  
I read that I'm whippin' a whip  
At my problems on my phone, my digital napkin  
Getting down with bullets of  
Negative thoughts in my brain  
When it's done I feel great  
And then there was none

What the fuck, I'm stuck in there  
With all this cash in my bank account  
Make my parents shop at it  
Be that's my better one  
I'm dreaming clouds with ballet  
While I'm keeping drugs up my catch  
Made me clock as I suck knuckles  
Sandwich made of blood

I don't know why I'm here  
But that don't mean nothing  
No, ask my dear  
I'm sitting with my cup  
Ramen sweat like tears

Scared my parents would hear me  
All the way downstairs

I prepped up my room  
Contact out this tune  
So strut, I bet it looked like  
I was tripping on shrooms  
My parents would be fuming  
If they saw what I was doing  
So I kinda kept it low-key  
But the ramen wasn't cooking  
So I had to go downstairs  
And its the basement microwave  
And I prayed that my parents  
Wouldn't check to see if I behaved  
I finished late, but the ramen wasn't escaped  
I took it back to my room  
And that's exactly where I ate

It will never happen  
That's why I'm down and rappin'  
I read that I'm whippin' a whip  
At my problems on my phone, my digital napkin  
Getting down with bullets of  
Negative thoughts in my brain  
When it's done I feel great  
And then there was none

Yeah, it will never happen  
That's why I'm down and rappin'  
But I still wish it would happen  
But as you know, I'm still goin' rappin'
