

No fear

BoyWithUke

Don't fear, I'll still find you
Right here, while I try to
Block tears
It's not happening to me cause
I feel right when
I'm here, contemplate my
Night terrors
I get when I fall asleep

Woahhhhhh (I'll still find you right here)
Woahhhh (while I try to block tears)
Woahhhhhh (it's not happening to me cause')
Woahhhhhh (I feel right when I'm here)
Woahhhh (Contemplate my night terrors)
Woahhhhhh (I get when I fall asleep)

'Cause it's everyday I know
Every person they have wrote
Every line that has surfaced in my mind and my throat
Every sign that is pointing to the sky
Let me look between the lies and I find
That my mind says no, (where do I go?)
It's wherever I go (where is my home?)
Stoned faced creature filming flaws like a show
(Don't make me go home)
It's a fucked up feeling hovering like a ghost
(All alone)
I suppose closed domes boast roast like a goat

Where is my home?
Don't make me go home, all alone
Don't make me go
Don't make me go
Don't make me go...

Don't fear, I'll still find you
Right here, while I try to
Block tears
It's not happening to me cause
I feel right when
I'm here, contemplate my
Night terrors
I get when I fall asleep

Woahhhhhh (I'll still find you right here)
Woahhhh (while I try to block tears)
Woahhhhhh (it's not happening to me cause')
Woahhhhhh (I feel right when I'm here)
Woahhhh (Contemplate my night terrors)
Woahhhhhh (I get when I fall asleep)

No matter what I throw
Adderalls, I got to float
Adding those I got no reason to
Afflicted with the rose
I got packets of cigarettes
The equivalent blow

Although, its no show
How am I supposed to know?
Oh, oh, oh, oh
Oh, oh, oh, oh
