

## Howz About It

Boyz II Men

(Hey, whassup, this is Michael.  
Just call to see what you guys going on this weekend.  
You know ever since I met you, I can't seem to let you go.  
Make sure you call me back. OK?)

Ever since the day that we first met  
Everything you do just seems to speak my interest  
Girl you know you piss right through my soul  
Make me wanna tell you things nobody knows yeah  
So here I am with heart in hand  
Your life have a mission for both you and I in these demands  
Wouldn't you like to take a trip with me  
Heaven knows just where this thing to lead

So howz about it  
You can just go away  
Howz about it  
We can leave today  
Howz about it  
No need to pack, I'll handle everything  
We can take a private jet  
Fly away  
We can fly, fly away

Listen  
Maybe you think it's a bit too soon  
I realize it's only than a week or two but  
Feels I know you all of my life  
And I wouldn't be surprised if one day you were my wife

So howz about it  
You can just go away  
Howz about it  
We can leave today  
No need to pack, I'll handle everything  
Take my jet, take my private jet  
And we can fly away  
Fly, fly away  
Don't even give it too much thought  
Just listen to your heart  
We can go anywhere you wanna go  
All you gotta is  
All you gotta is  
Let me know  
Howz about it
