

Put Some Music On

Boyz II Men

Lay your head on my pillow
Stay for a while (Don't you go nowhere)
I'm getting hungry for something that only you can provide
I know we met in the club
But that don't mean, that don't mean nothing to me (oh no no)
You know I know what I'm doing
So listen, listen to it, ooh

Gonna put some music on
It's gonna make you wanna love me all night long
But I put some music on
It's gonna make you wanna all night long,

Girl, it's cold and it's raining
But it's warm inside
The way it's feeling baby any soul will do tonight
I know we just met in the club
But that don't mean, that don't mean nothing to me (no no no no
)
I know you know what you're doing
You like what I'm doing, oh

Gonna put some music on
It's gonna make you wanna love me all night long
But I put some music on
It's gonna make you wanna all night long, baby

Gonna put some music on
It's gonna make you wanna love me all night long
