

# Dream

Boyzone

[Verse 1]

Everybody knows how the story goes  
We were running 'round  
Thinking 'bout dreams down the road  
No regrets we have left to explain  
And I know that that can't be bad  
And I hope that you're feeling the same

[Pre-Chorus]

And no matter how hard I try to remember again

[Chorus]

I can dream that we turned back the time  
Dream that we stood side by side  
My heart never let me tell you goodbye  
I can dream of you  
Dream of you  
Maybe this time  
I can fly

[Verse 2]

Looking back through all the memories  
We were only young, never wrong  
That was how it seemed  
We could do anything with no consequence  
We travelled on, we played along  
And I know that you're feeling the same

[Pre-Chorus]

And no matter how hard I try to remember again

[Chorus]

I can dream that we turned back the time  
Dream that we stood side by side  
My heart never let me tell you goodbye  
I can dream of you  
Dream of you  
Maybe this time  
I can dream  
I can dream  
I can fly

[Bridge]

We decided, we could fly  
And we could find our dreams and then  
We survived it, worlds collide  
But it's never as it seems  
We decided, we could fly  
And we could find our dreams and then  
We survived it, worlds collide  
But it's never as it seems

[Chorus]

Dream that we turned back the time  
Dream that we stood side by side  
My heart never let me tell you goodbye

I can dream of you  
Dream of you  
Maybe this time  
I can dream (Woah)  
My heart never let me tell you goodbye  
I can dream of you  
Dream of you  
Maybe this time  
I can fly
