

# Talk About Love

Boyzone

Yeah it's been a hell of a night  
Both of us too scared to face it  
We've been takin' the time  
Both of us don't wanna waste it  
Sunglasses in sight  
To hide the worry in your eyes

Nobody said it would be easier  
No promises but if you need me  
Just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love  
Let's talk about love  
And you could just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love  
Talk about love  
And you could just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love

Now it's a quarter to 3  
I know you like to keep me guessing  
So if you don't wanna leave  
I don't need to ask the question  
I can't read your mind  
I see the hurting in your eyes

Nobody said it would be easier  
No promises but if you need me  
Just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love  
Let's talk about love  
And you could just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love  
Talk about love  
And you could just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love

And you could just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love  
Talk about love  
And you could just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love  
Talk about love  
And you could just stay for the night  
We could be lonely together for the night, yeah  
Let's talk about love
