Boz Scaggs

She's so tired of this
So tired of that
Sometimes I don't see why
She'd go out of her way
To mess up your day
So what's the use in trying

To get along with her
It's all wrong for her
What more can you do
She just wants to fight
She likes to keep you uptight
And its just too bad for you

But the only thing is
She can take care of business
Like no woman you've ever seen
Then without thinking twice
She can make it so nice
Like no place that you've ever been

She got the smile
She got the pretty face
She keeps her pretty things on my mind
She got the moves
She got the grooves
She got the.. moves.. yeah..yeah..yeah

Oh the pains are here
The pains are there
She may not see tomorrow
She just can't go on
She's as good as gone
And her love may die of sorrow

But the only thing is
She can take care of business
Like no woman you've ever seen
Then without thinking twice
She can make it so nice
Like no place that you've ever been

She got the smile
She got the pretty face
She keeps the pretty things on my mind
She got the moves
She got the grooves
She got the moves.. yeah.. yeah.. yeah
