

# I've Just Got to Know

Boz Scaggs

I want to know, I want to know, I just got to know  
Why do you always play around  
If you, if you have the same feeling for me  
Then why don't you settle down

I want to know  
I want to know, I just got to know

I think you want me for conveniency  
If I'm wrong please tell me right  
I know, I know I been in the dark for a long time  
But some day I'll see the light

And I want to know  
I want to know, I just got to know

It takes you to prove you love me  
You can prove it sure as the world is round  
But from, but from your ways and actions  
I have a feeling you have let me down

I want to know  
I want to know, I just got to know

It takes you to prove you love me  
You can prove it sure as the world is round  
But from, but from your ways and actions  
I have a feeling you have let me down

I want to know  
I want to know, I just got to know

And I want to know  
I want to know, I just got to know
