

# I Want to See You

Boz Scaggs

Know this girl, this Mary Ann  
Can't see her when you want to  
You've got to see her when you can  
I had a dream, late last night  
You were speaking to me  
Everything was alright  
I had a dream, in the morning time  
Birds were singin'  
Everything was just fine

I want to see you  
I want to see you  
I'd like to call you  
Want to get to know you  
I think I want to be with you  
I think I want to be with you  
I think I want to be with you  
With you

Talk about a woman, you're sad and leave  
Said that you wanted to find out about me  
Sorry Anna Lee, go on, do the best you can  
Got a one track mind; I know you understand

I want to see you  
I want to see you  
I'd like to call you  
Want to get to know you  
I think I want to be with you  
I think I want to be with you  
I think I want to be with you  
With you

That's just walkin'  
That's just talkin'  
'Cause she untied my left shoe  
Then I start to wonder  
What you tryin' to do?  
Next she untied my right shoe  
Then she said to me, 'am I comin' through?'  
(Yeah, you're comin' through alright)  
I want to see you  
I want to see you  
I want to call you  
Want to get to know you  
And I think I want to be with you  
And I think I want to be with you  
I think I want to be with you  
With you

I want to see you  
I want to see you  
I want to call you  
Want to get to know you  
And I think I want to be with you  
And I think I want to be with you  
I think I want to be with you

With you
