

Little Miss Night and Day

Boz Scaggs

Well now I found me a girl, it's a wonderful thing
I'm a-wearin' this smile, she's a-wearin' my ring
She's like a talisman, some kind of mystical pearl
She's my dark angel, my blue eyed girl

Well it could have gone wrong, and maybe even right
There's some kind of things a man can't fight
Amongst her shores, I'm all swept away
I ask her "What's your name" she said "Call me Miss Night and Day"

That girl can roll with me now, roll till the break of day
She can roll like she wanna, any ol' kind of way
When she go rockin' round the clock I call her Little Miss Night and Day

Sometimes she will, sometimes she won't
About the time she should, that's the time she don't
She's like the moon, never ever stay one way
She got the rhythm and the blues, you got to love Miss Night and Day

Well it might come heads, might be tails
But you go acting the fool she'll run you off of the rails

And then she smiles, in that mischievous way
That's when I call her my flame her name is Little Miss Night and Day

Well she's cool under fire, she can cover and duck
You think you got her in range, oh well, good luck
She's my shotgun lover on that long highway
She keeps her eye on the street kids, they call her Miss Night and Day

She can roll with you buddy, she can roll with you girl
And roll it on down the line
If she's not battin' a thousand, she's hittin' nine-ninety-nine

She's a mean mistreater, and my dungaree doll
She's a gone little queenie, and that ain't all
She puts the top down, we're on the town, drivin' them blues away
Locked down and loaded, Miss Night and Day

You better roll with me girl, you better roll with me honey
You better roll with me child, come on and roll with now
She keep me rockin' round the world my Little Miss Night and Day
