

# Some Things Happen

Boz Scaggs

You best let some things happen  
On their own  
You better leave them alone  
Cause when they happen naturally  
It's like standing in the rain  
You're gonna get wet  
It's gonna get all over you  
So when it happens like that  
Don't bother asking where its from  
You just take it as it comes

It was a great year for a fall  
Yeah it happened like that  
With no direction there to give  
Didn't matter much at all  
Bells didn't ring  
There was nothing calling me out there  
Yet I was kinda grooving like that  
Until it hit me like a shot  
You're part of everything I've got

I felt the sun coming through  
And it happened to be you  
I had to look away to see  
That you happened to be happening to me

It's that sensation when you're falling  
And you stop in time  
And in that moment you will hear  
Just a matter of fact  
It's gonna get wet  
Gonna get all over you  
Sometimes it happens like that  
Now don't be asking where its from  
You just take it as it comes

I felt the sun coming through  
And it happened to be you  
I had to look away to see  
That you happened to be happening to me

Bells didn't ring  
There was nothing calling me out there  
Yet I was kinda grooving like that  
Until it hit me like a shot  
You're part of everything I've got

I felt the sun coming through  
And it happened to be you  
I had to look away to see  
That you happened to be happening to me

I felt the sun coming through  
And it happened to be you  
I had to look away to see  
That you happened to be happening to me
