

There's a Storm A' Comin'

Boz Scaggs

There's a storm comin'
You'd better run
There's a storm coming
Goodbye to the sun
There's a storm comin'
You'd better
Run boy run
You'd better run

There's a ship that's sailing
Out in the night
There's a heart that's breaking
I think it's mine
There's a storm comin'
You'd better
Run boy run
You'd better run

Every little part of you
Is a miracle of molecules
Every little thing you do
Is so sad, in the end
Oh in the end

There's a ship that's sailing
Out in the night
There's a heart that's breaking
I think it's mine
There's a storm comin'
You'd better
Run boy run
You'd better run
