

Why Why

Boz Scaggs

I drank up all the bottle
But my thirst won't go away
Called you on the phone girl
But there ain't much I could say
Do I get some consolation
Seems there's nothing to be had
I wonder why why why
I wonder why why why why
Must a good love go bad
Time wise I'd find someone else
But now it ain't no good
God I can't get over you
But when your here I could
No it just don't stand to reason
And it's about to drive me mad
I wonder why why why
I wonder why why why why
Must a good love go bad
I can't get used to leaving you
It's hard to face the fact
It's over now you're gone for good
Aint no turning back
Can I find some consolation
Seems there's nothing to be had
I wonder why why why
I wonder why why why why
Must a good love go bad
Its cold and dark in here tonight
Its like some kind of curse
I thought things were bad enough
Couldn't get much worse
No it just don't stand to reason
And its about to drive me mad
I wonder why why why
I wonder why why why why
Must a good love go bad
