

Leave It Alone

BR5-49

Tell me, tell me, why ya gotta spoil my day
You smile at me and point a finger to the error of my ways

You can't leave it alone
Why don't you leave it alone
You can't help makin' everybody's house your home
Why don't you leave it alone

Maybe, maybe, there's something that you've never done
That causes you to pull that trigger and ruin everybody's fun

You can't leave it alone
Why don't you leave it alone
You can't help makin' everybody's house your home
Why don't you leave it alone

Hey, G, hey, G, why ya gotta be so mad
You've got everything you've ever wanted
Now you're takin' everything I have

You can't leave it alone
Why don't you leave it alone
You can't help makin' everybody's house your home
Why don't you leave it alone

Look up (look up) an' look down (look down)
Look North, South, East or West
You can't walk around without trippin' over somebody
And tellin' you they know best

They can't leave it alone
Why don't they leave it alone
You can't help makin' everybody's house your home
Why don't you leave it alone
Oh, leave it alone, yeah
You can't help makin' everybody's house your home
You can't leave it alone
