

## While You Were Gone

BR5-49

You're back again I knew that you'd come crawlin' Standin' there, you still look like a dream But I'm reminded of the many times we've played this game before And I swear I can't believe that you keep comin' back for more But you wore out the welcome mat at last time you slammed the door Ya can't come back this time

CHORUS: While you were gone I had some time to think about The way you did me wrong Misery and heartache I can do without Lost your hold on me While you were gone

You rolled the dice And lost this heart of mine But you'll pay the price Somewhere along the line If you keep burnin' bridges, breakin' hearts and slammin' doors 'Tryin' to find a way to fill the emptiness of yours You're gonna find it comes around to what you did before Your world came crashin' in

CHORUS
