What's that feeling in the air? It seems to be just everywhere Someoneput the spell on me
But there's no one I can see

Love, is got me waiting for the sunrise Love, gets me high and makes me smile Love, all the people feeling alright Love, love, love...

Heaven knows what it's all about
It makes me wanna, scream and shout
Sounds like music in my head
Oh, I got the feeling I've never had, come on...

Hey man, did you hear what I said?
You gotta choose between the love and hat!
It's a moment that you gotta look at my face
My face!
