

I hope you don't know my name
It just wouldn't be the same

I'm confused about all the things I do
Cause nothing that I say is true

And if I tell a lie
please be my alibi
I wanna make beleive it's real
That's just the way I feel
There's nothing left to fabricate
Did I mention that Elvis is alive?

I hide my identity
Truth is my worst enemy

I just can't help fooling myself
This time
