# Sleep

**Bracket**

I had a dream last night
Woke up and I was still asleep
I felt the bed bugs bite
You thought that I was counting sheep
But I was wide awake, was wide awake all night
Was wide awake, was wide awake, was wide awake all night

Can't sleep with the door closed
No, I'm not scared of the Boogie Man
Just a dream I suppose
You thought that I was counting sheep
But I was wide awake, was wide awake all night
Was wide awake, was wide awake, was wide awake all night

If I happen to wake up
I won't go there again
I will never close my eyes
This time I've had enough
Hoping this is the end
I still like lullabuyz

I always did fall down
But never hit the ground
I wake up just in time
I try to run away I'm waiting for the day
That I can ease my mind
I try to raise my voice
But I can't make a choice
I just can't make a sound
Sat up in a cold sweat
My sheets are soaking wet
I think I'm gonna drown
But I'm awake, but I'm awake, awake all night

If I happen to wake up
I won't go there again
I won't ever close my eyes
This time I've had enough
Hoping this is the end
I still like lullabuyz

I always did fall down
But never hit the ground
I wake up just in time
I try to run away
I'm waiting for the day
That I can ease my mind
But I'm awake, but I'm awake, awake all night

That was just practice, right?
