

## Born On Christmas Day

Brad Paisley

It was a cold and dark December night  
But a star still lit the sky  
Away in a manger you heard a baby cry  
It was the cry of the Son of God  
A little baby boy  
Born in that manger to bring the world joy

So hush up little baby  
You know not what you'll do  
You'll bring the world peace and love  
And teach them while you do  
You have nothing to fear because you know  
God is with you all the way  
That little important baby  
Born on Christmas day

Many people soon gathered round that tiny run down barn  
They knew not of what they saw  
Then came three all dressed in fancy robes, silks and furs  
This was the first indication of the importance of his birth

So hush up little baby  
You know not what you'll do  
You'll bring the world peace and love  
And teach them while you do  
You have nothing to fear because you know  
God will lead the way  
That little important baby  
Born on Christmas day

We expected a soldier to save us from our plight  
All dressed in shiny armor, ready for a fight  
But instead he sent a little baby boy  
All filled with love happiness  
To bring the world joy

So hush up little baby  
You know not what you'll do  
You'll bring the world peace and love  
And teach them while you do  
You have nothing to fear because you know  
God will lead the way  
That little important baby  
Born on Christmas day  
That little important baby  
Born on Christmas day
