

## Counting Down The Days

Brad Paisley

Walking down the street, looking at the faces  
Seeing just a few more smiles  
Storefront window's getting decorated  
No, it won't be long now  
All the café's making peppermint lattes  
You can make mine a double  
'Cause it's been a grind but I see  
Christmas lights at the end of the tunnel

And we're counting down the days  
'Til the world's a better place  
I can already feel the joy and the peace  
Just knowing it's on its way  
And we're counting down the days  
'Til it's Christmas

The shoppers are shoppin', the temperature's droppin'  
They're saying this year it could snow  
There's parties and pageants, a little more traffic  
'Cause everyone's traveling home

And we're counting down the days, it's almost here  
Yeah, the world's a better place this time of year  
I can already feel the joy and the peace  
Just knowing it's on its way  
And we're counting down the days  
'Til it's Christmas

It's holly and wreaths, it's Christmas trees  
And its kids singing Jingle Bells  
I wait all year for this right here  
Count down the months until

We're counting down the days, it's almost here  
Yeah the world's a better place this time of year  
I can already feel the joy and the peace  
Just knowing it's on its way  
And we're counting down the days  
'Til it's Christmas

10, 9, 8, 7, 6, 5, 4, 3, 2, 1, Christmas!
