

## Me Neither

Brad Paisley

Darling I've been standing here just watching you all night  
And I think I've even caught you watching me a couple times.  
If I don't ask I'll never know  
This may sound dumb but here we go  
Do you believe in love at first sight?

Me neither I'm glad that we agree  
Believe me that's a big relief  
Well this place is awful crowded  
And this music is so loud  
Would you like to go and grab a bite to eat?  
Me neither

It's nice to finally meet a girl who doesn't move too fast  
I was only checking that's the reason that I asked  
Relationships need time to grow  
You and I should take this slow  
Darling tell me would you like to dance?

Me neither I's just being polite  
Thank goodness my feet are much too tired  
I'm sure your tired too  
I can see an empty booth  
Would you like to maybe sit and talk awhile?  
Me neither

We'd never get along  
I'm thinking there's no chemistry at all  
This has been a waste of time  
And I'm running out of lines  
Don't you think it's time for me to end this song?  
Me neither

(Ah here we go!)

(Ah yeah!)
