

Snow Globe Town

Brad Paisley

Carolers on Main Street singing "First Noel"
Big red bows on the lamp posts, Salvation Army bell
A Christmas tree tied to the roof of a classic Oldsmobile
You just shook your head and said
"Is this place even real?"
It's like a

Snow globe town
Like it's sitting on a mantel in some cozy little house
Ain't no place else I'd rather be, when Christmas rolls around
Than this snow globe town

I love seeing this place through someone else's eyes
It took leaving here and coming back to realize
How magical it is here on a cold December night
It's like that old movie marquee says
"It's a Wonderful Life"
In this

Snow globe town
It's like it's sittin' on a mantel in some cozy little house
Ain't no place else I'd rather be, when Christmas rolls around
Than this snow globe town

Now, the kids are puttin' crayons in the freezer
And their PJs on inside-out tonight
Hopin' and a prayin' God'll pick us up
And shake us up and turn this Christmas white

Ain't no place else I'd rather be, when Christmas rolls around
Than this snow globe town
