

## Certain Death

Brad Sucks

Okay so you're feeling all alone  
I heard it on the radio  
In a broadcast from the sky

Someday I'm gonna rock the boat  
And I'm gonna wanna know  
Why it's a great day to be outside

Keep me up with your emotions at night  
Then you can shoot me down over the ocean and sigh

Certain death  
Haven't had the heart to yet  
Maybe by the time we meet  
You can recognize a change in me  
Baby, certain death  
Haven't had the chance to yet  
Maybe by the time we meet  
You can recognize a change in me

I could count the times that it crossed my mind  
Sick in bed and dying  
From something I don't have  
And will never have

And your best friends won't be your friends anymore  
Won't pretend anymore to let you down or try

Keep me up with your emotions at night  
Then you can  
Shoot me down over the ocean and sigh

Certain death  
Haven't had the heart to yet  
Maybe by the time we meet  
You can recognize a change in me  
Baby, certain death  
Haven't had the chance to yet  
Maybe by the time we meet  
You can recognize a change in me
