

## Dirtbag

Brad Sucks

It's a little bit hard to understand  
But I only wanna be a modern man  
On the wire it couldn't be nicer  
Just thinking about the one that got away  
Nobody wanna give me heart away  
You could make your mind up it could take your time up

It seems you've mistaken me for someone who cares  
I'm just a dirt bag under the weather and overrated

Living underground taking it to the scene  
Making money not knowing what it means  
I'm a liar set shit on fire  
Take your time talking down to all your friends  
Living with the little dogs and elephants  
It's hard to find it but I don't mind it

Hitching a ride with the bugs and the flies and I'm on my own
