

## Arrakis

Brad

I was just wandering after love  
if I started falling anywhere around here  
'cause I swear that I saw in the sky, a comet  
A star flying high everywhere  
If you know me, know me, know you can show me  
Yes I know, if you want, move close to the sun  
And ohh  
And ohh  
I feel that, too young, I know it's all wrong  
We walk through the field without a care in the world  
If you know me, know me, know you can show me  
Yes I know, if you want, move close to the sun  
And ohh  
And ohh  
And all we are is all we are  
And all we are is all we are
