## **Couch T-bone**

Waters rise to meet the sound of day Oceans swell to have the final say But who's to give, and who's to take away? Have to try, it's better to try So we all can sit together It's one for all, and all for one It's holding hands, you havin' fun? It's who you are, we are alone So hold on tight and don't let go Don't be afraid to let it show A king and queen, oh don't you know? A king and queen, oh don't you know? That you are me... In the bottom of my heart In the stories of the past Watch the face, you know too well Watch the shadow made of diamonds It's one for all, and all for one It's holding hands, you havin' fun? It's who you are, we are alone So hold on tight and don't let go Don't be afraid to let it show A king and queen, oh don't you know? A king and queen, oh don't you know? That you are me...
