

## Milwaukee Sky Rocket

Braid

This is what you made it  
You can't separate it  
You can't segregate yourself  
From everyone else

Open  
Cover your eyes  
Come on cover your eyes  
The light will slow and rise  
And i never will lie  
So come on cover your eyes  
Covers over mine  
V this is how you take it  
Past whatever you set for yourself  
You're killing yourself  
And everyone else

Open  
Color your eyes  
Come on color your eyes  
Why the disguise  
And i never will hide  
So come on color your eyes  
I'll color over mine

Said you could see right through  
You and where you will be  
Impress yourself.
