

## ...And I Wonder

### Brainstorm

You never meant to stay alive  
But this flame within your heart hasn't died  
You tried to run away from all the things you've done  
Now I hope that you will understand  
Remember the times when you held my hands  
You thought you're strong but not until we'll meet one by one

You're so strong, don't say goodbye  
It seems to be so long until you'll lose your sense of time

And I wonder if you're out there  
Hear you calling my name from somewhere  
And I wonder what's inside  
Like a memory you chose to hide

The time has come to meet your mystery  
With all your thoughts you're too blind to see  
With all these changes, who's to blame, you know my name  
You knew this day would come to end  
You're crashing through the walls of time  
But there is no one to set you free, not what it used to be

But now you're gone and said goodbye  
It seems to be so wrong until your time has come to shine
