

# Crawling

## Brainstorm

Each step by step closer than before  
You're on the edge and you can't ignore  
You don't want no compromise  
But would you make a sacrifice?

And every hour is like a déjà vu  
You pay the price for what I want you to do  
Inside the shadows of the night  
Your life's hiding far out of sight

When your world has slipped away  
Heaven and hell will call  
I'm leaving you stunned in defeat  
Behind a closed door, I say

Oh, can't you see me crawling in? (Crawl)  
I don't know where, where to begin  
Oh, can't you see me crawling out? (Crawl)  
I don't know where I'm falling out  
Oh, can't you see me crawling in? (Crawl)  
I don't know where, where to begin  
Oh, can't you see me crawling out? (Crawl)  
I don't know where, don't know where I'm falling out (I'm falling out)

Your tears are falling into the rain (I'm falling out)  
It's so insincere and so insane (I'm falling out)  
Sometimes we forget to see  
What is real, what will never be (I'm falling out)

I lured you in with my words so sweet (I'm falling out)  
Redemption is mine the day I leave (I'm falling out)  
But after all that we've been through  
My heart is coming home to you

When your world has slipped away  
Heaven and hell will call  
I'm leaving you stunned in defeat  
Behind a closed door, I say

Oh, can't you see me crawling in? (Crawl)  
I don't know where, where to begin  
Oh, can't you see me crawling out? (Crawl)  
I don't know where I'm falling out  
Oh, can't you see me crawling in? (Crawl)  
I don't know where, where to begin  
Oh, can't you see me crawling out? (Crawl)  
I don't know where, don't know where I'm falling out

Oh, can't you see me crawling in? (Crawl)  
I don't know where, where to begin  
Oh, can't you see me crawling out? (Crawl)  
I don't know where I'm falling out  
Oh, can't you see me crawling in? (Crawl)  
I don't know where, where to begin  
Oh, can't you see me crawling out? (Crawl)  
I don't know where, don't know where I'm falling out (I'm falling out)
