

# My Dystopia

## Brainstorm

Gaze into the mirror  
Pulling on the trigger  
When the dream is over  
On this dark and bloody night  
The moon hangs in the sky  
You come closer

Haunted by the never  
Laughing at another  
True believer's suicide  
Evil forces gathering  
Clouds are closing in  
While I'm still inside

Don't know why I'm here beyond the frontier  
My dystopia  
Don't you ever say I'm losing my fate  
My dystopia  
Don't know why I'm here beyond the frontier  
My dystopia  
Don't you ever say I'm losing my fate  
My dystopia

All is now or never  
I can feel the pressure  
Leading to the inside  
Doomed in plight as  
Misery is my worst enemy  
You come closer, closer

With the rising of the sun  
A new fight has begun  
You can't conceal  
Warning signs already passed  
Nothing ever lasts  
The way I feel

Don't know why I'm here beyond the frontier  
My dystopia  
Don't you ever say I'm losing my fate  
My dystopia  
Don't know why I'm here beyond the frontier  
My dystopia  
Don't you ever say I'm losing my fate  
My dystopia

Don't you ever say I'm losing my fate  
My dystopia  
Don't know why I'm here beyond the frontier  
My dystopia

Don't know why I'm here beyond the frontier  
My dystopia  
Don't you ever say I'm losing my fate  
My dystopia  
Don't know why I'm here beyond the frontier  
My dystopia

Don't you ever say I'm losing my fate  
My dystopia
