

# Ravenous Minds

## Brainstorm

Crossing my life, ravenous minds  
Falling till I disappear  
Crossing my life, ravenous minds  
There's no way out of here

Look in my eyes and see  
Behind the veil of obscurity  
I lay me down to sleep  
Losing my fate but soul to keep

Watching me till the end  
A soul has passed to burn again  
Dark shadows of the damned  
Spread their wings, they will descend

It's running through my veins  
Say a prayer, cast a spell  
I'm causing the living hell

Crossing my life, ravenous minds  
Falling till I disappear  
Crossing my life, ravenous minds  
There's no way out of here

Crawling inside the mind  
Is this the fight to face my crimes  
Pulling the strings behind  
The scenes to harm and fear the mind

If all the world could see  
Me for who I'm used to be  
Leaving me violently  
I still hear you in my sleep

The curse reveals my mind (revelas my mind)  
Say a prayer, cast a spell  
I'm causing the living hell

Crossing my life, ravenous minds  
Falling till I disappear  
Crossing my life, ravenous minds  
There's no way out of here

Crossing my life, ravenous minds  
Falling till I disappear  
Crossing my life, ravenous minds  
There is no way out of here

There is no way out of here  
When all is lost and all is gone  
There is no way to choose right from wrong

Crossing my life, ravenous minds  
Falling till I disappear  
Crossing my life, ravenous minds  
There is no way out of here

Crossing my life, ravenous minds  
Falling till I disappear  
Crossing my life, ravenous minds  
There is no way out of here

Crossing my life, ravenous minds  
Falling till I disappear  
Crossing my life, ravenous minds  
There is no way out of here
