

# Tomorrow Never Comes

## Brainstorm

Drowning in your misery  
You've reached the end of nothing  
You all think you know the world  
Just leave it all behind  
You say you just got a pain overload  
Your soul died a long time ago  
Feels like tomorrow never comes  
You ride on wings of broken dreams  
Feels like tomorrow never comes  
Deprived of all your self esteem  
Another day in misery  
You take the road to ruin  
All your sorrow pulls you under  
Time to draw the line  
You say you ain't got a reason to be  
There's no need for pain anymore
