

Turn Off The Light

Brainstorm

You lost your mind, your common sense
Obtain your ignorance
A second of your time and we'll
Come closer to the end
Twisting together
A crown of thorns
Building strength from what's inside
Prevent your suicide

Inside the vault you're down the drain
Got nothing left to fear
Inside the walls there's no despair
But when we're gone you're locked inside
I'll turn off the light
Turn off the light

Stacking up the walls that hide
Your feelings from within
I hope that when we find the key
You know where to begin
Connecting together
The sound of horns
Now see the grin behind my face
Like a serpent of disgrace

Inside the vault you're down the drain
Got nothing left to fear
Inside the walls there's no despair
But when we're gone you're locked inside
I'll turn off the light

I know how sorrow creeps when there's temptation all around
How can I see it all again? We're on a journey to the end

Inside the vault you're down the drain
Got nothing left to fear
Inside the walls there's no despair
But when we're gone, you're locked inside
I'll turn off the light
Turn off the light
Turn off the light
