

## When No One Cares

### Brainstorm

I'm out trippin' the system  
I'm lookin' down where you dwell  
How many times I count you out and  
How many times your world comes crashing down?  
Accepting, denying the fear you were lying  
Unaware of the plans I had made  
Threads are broken, the promises taken  
You're losin' your pride and I'll keep you alive  
But no one knows or seems to care  
I grow strong and breathe the same air  
The answers there for all to see  
But you're suffering within your false belief  
You're in, now you have to face  
Now we're together by a fall from grace  
Enchanting words, dreams denied  
Whatever I find, you appear on my mind  
Accepting, denying the fear you were lying  
Without words you accept my life  
Threads are broken, the promises taken  
Times we shared, time to survive
