

Bloomtodeath

Learned tryna find myself
It ain't gotta be a one way fight
But every single time I ask for help
They just talk right over me, assume I'm fine
Now I'm closing every open door
Bent teeth and it's all my fault
I lose grip wasting all this soul
I'm falling apart

Cause no one cares for me except me
I'm chilling by death
CBD
Baby was something I said too extreme
Now while you dying to reach me
I don't care

Cause no one cares for me except me
I'm chilling by death
CBD
Baby was something I said too extreme
Now while you dying to reach me
I don't care
Cause no one cares for me

I just really wish I warned myself (Run)
That because my momma raised me right
I would have to kick you off the shelf
You motherfuckers was a waste of time
Clock's ticking
Why would I ever listen
I don't need supervision
I'm balling with no provisions
I'ma be a musician
I'ma fuck up my life
And that's why

No one cares for me except me
I'm chilling by death
CBD
Baby was something I said too extreme
Now while you dying to reach me
I don't care

Cause no one cares for me except me
I'm chilling by death
CBD
Baby was something I said too extreme
Now while you dying to reach me
I don't care
Cause no one cares for me
