

I can't wait no longer  
Would you say something?  
I can't wait no longer

D-D-Dropped out, I was 17  
Wasting all my money, mixing dope and LSD  
Man, mama said "Don't get ahead of me"  
But I don't wanna finish college, I got hella dreams  
Well, I don't know what's gotten into me  
Ever since I stopped pretending, it was history  
Dropped out, I was 17  
Now I've got more freedom than I've ever seen

Life don't have directions  
And I been tryin' to quarantine  
The thought of heaven in the meantime  
I've realized I've been there before  
All the doors are closed  
Wanted so much more  
Now it's nice to know  
There's no enemy  
Or a victory  
It's all costumes, funny dances to-  
I can do everything

D-D-Dropped out, I was 17  
Wasting all my money, mixing dope and LSD  
Man, mama said, "don't get ahead of me"  
But I don't wanna finish college, I got hella dreams  
Well, I don't know what's gotten into me  
Ever since I stopped pretending, it was history  
Dropped out, I was 17  
Now I've got more freedom than I've ever seen  
What other effects?

I-I-I love my mama  
Don't wanna be apart, man  
My brothers say just go get an apartment  
Flipping the pages to get into the garden  
By now the mara taller, treat me like a God, damn  
Feelings rolled up and it's 'bout time  
Exhale in the ninth cloud, cloud nine  
I got money, I'll expand on it  
Cancel your plans, authority couldn't handle us

Okay, this the type shit that make my hands fall asleep  
Low blood sugar and some more caffeine  
I don't need loving but I want that cheap  
So much luck that I've laughed to pieces

Looked inside for some consolation  
I found a bi dime in his prime, embraced it, I  
Learned it was never complicated  
You are who you are, don't keep you waiting  
I said you are who you are, don't keep you waiting  
(I can't wait no longer)  
I said you

(Won't you say something)  
I said you are who you are, man  
(I can't wait no longer)

Dropped out, I was 17  
Wasting all my money, buying 1P-LSD  
Mama said, "don't get ahead of me"  
Well I don't wanna finish college, I got hella dreams  
I don't know what's gotten into me  
Ever since I stopped pretending, it was history  
Dropped out, I was 17  
Now I've got more freedom than I ever seen

He was only in town for like, a month, and we've been friends for like-
