brakence

If I ever got to leave here by success, I wouldn't wait for you  
I'd rather keep our thoughts in checkmate  
And I've been hurting tryna pull this out my chest  
Is there another way to say that I won't talk to you again?  
I won't talk to you again

'Cause I ain't doing favors  
Maybe confounded  
Couldn't give a fuck about it  
I ain't doing favors  
On the way get grounded  
Stable like mountain  
Fake your nature  
Say you changed but I doubt it  
Put your money where your mouth is  
I ain't doing favors  
If longevity is out there  
Need amenity you-  
'Cause I ain't doing favors  
Maybe confounded  
Couldn't give a fuck about it  
I ain't doing favors  
On the way get grounded  
Stable like mountain  
Fake your nature  
Say you changed but I doubt it  
Put your money where your mouth is  
I ain't doing favors  
If longevity is out there  
Need amenity you out there

Just feel no info  
You should give me my respect  
You ain't know what you're in for  
Not pretty at best  
My thought's in limbo  
No law, no intro  
If you're talking 'bout the credo  
Know I'm coming for the neck  
I-I don't wanna be provocative  
I just ain't tryna breathe your oxygen  
Why you going round startin' shit?  
I've found that need no argument  
You committed cardinal sin  
Knees weak, no sleep, we gon' drift apart  
Just mark in it, ain't no meager feat  
But fuck off tryna politic  
And chase my goals I can't date it back  
I don't wait for shit, I ain't made for that  
We got the same flow, whoa, where'd it go?  
Need to change clothes still blow it up like a staple fact  
And I'm gone  
Then spend all my luck on Twitter  
Know me, found I ain't the same in winter  
But this a marathon and all these fuckboys sprinters  
Gonna paint a moral high ground that's a painkiller  
You can feed me lies if you're compelled

I'ma be frank for my health  
My sweetheart handsome as well  
'Cause I see both sides like Chanel  
This an artist's ocean, my blueprint  
Say that you ain't bugging you lucid  
Ain't it funny how you can't prove it  
Who do I always see running back

I ain't doing favors  
Maybe confounded  
Couldn't give a fuck about it  
I ain't doing favors  
On the way get grounded  
Stable like mountain  
Fake your nature  
Say you changed but I doubt it  
Put your money where your mouth is  
I ain't doing favors  
If longevity is out there  
I need amenity, you out here  
I ain't doing favors  
Maybe confounded  
Couldn't give a fuck about it  
I ain't doing favors  
On the way get grounded  
Stable like mountain  
Fake your nature  
Say you changed but I doubt it  
Put your money where your mouth is  
I ain't doing favors  
If longevity is out there  
I need amenity, you out here

Fuck you, you too basic for a maybe  
You lucky if you waitlisted, I'm lazy  
I'm stuck on a few pages in a daydream  
No one's gonna be able to save me  
These days self-hatred is motivation  
Spreads outside me and I'm running out patience  
Let you lie but cut you out the equation  
Never liable, when bluffing I never say shit  
Where'd the mood go, flip the beat like judo  
You got that fools gold, say you don't you do though  
On my feet, uh, ain't no mass appeal, uh  
Pity a leader, wouldn't wanna be you  
And I been waiting way too long to be free from ya  
Free from ya

I'll remember this up out the top of my head  
No etiquette cause I won't edit with the thought of a threat  
Make your bets, this ain't Reddit, won't argue on in no thread  
It's art, taking shots in the dark, beat already dead  
Couldn't give less of a fuck what you say  
'Cause I'm a gifted mess and I'm stuck in my ways  
Everybody want a feature I won't ask for no pay  
A teacher by night, preacher by day, but don't actually pray  
I'm that kinda fake, I hold that kinda weight  
Float leave a passionate wake  
I ain't burning no rubber  
I'm back in action been averting stunners since day one  
I'll curve a sucker 'cause they too basic like A1  
And it hurts to say this but don't call my line  
I been done with you since autumn you ain't worth my time

The fuck does it take get out the Matrix and learn your lie  
I thought you knew the first time
