Fuckboy tryna play my homie  
But 2020, I'ma take time on me  
Out the window where my mainline goes  
This is sacrilegious how I'm gon' fade off IG

Heartache comes in many forms  
One day opens any door but  
I've never seen this distant  
What success? My eyes are on a screen  
If you're hurting, call my line  
And if you're doin' good, it's not like I don't care  
I wanna see the world  
This shit ain't the same if I can't breathe your air

Fuckboy tryna play my homie  
But 2020, I'ma take time on me  
Out the window where my mainline goes  
This is sacrilegious how I'm gon' fade off IG

Hope you find someone who can be invested  
I'm not over you, that's not my objective  
So obsessed with my mistakes, I gotta accept them  
So I'm not gonna listen to him

He always wants a little more  
Lost in his fake love and subliminals  
Won't stay true if it's difficult  
A lie is a lie  
Won't hide this shit to waste your time  
And that's just bein' honest  
Shouldn't fall in love and I shouldn't go to college  
Gotta fight off all the pain he made in August  
I'm not who you think I am

Fuckboy tryna play my homie  
But 2020, I'ma take time on me  
Out the window where my mainline goes  
This is sacrilegion how I'm gon' fade on IG

I won't put no filler or no dud in my setlist  
You should up your standards for what I can be impressed with  
Out your metric  
I'm alive and I need help  
Hit concrete bottom  
You could say I learned my lesson

Say I learned my les-learned my lesson-esson-esson  
Say I learned my-say I learned my  
Say I learned my lesson  
My lesson, my lesson  
-play my homie  
But 2020- take time on me-take  
Out the window-my mainline goes  
This is so-sacrilegion- fa-a-a-a-I-I-I-g
