

Bloomtodeath

Whenever I approach you
I'm always getting close to
Sayin' it out loud
So take out all the O2
The autumn wind will blow through
You're never gon' find out, out
He said, "Curse that fallen angel"
How I'm scrapin' up a scheme to serve the plot
(Don't get in my fucking way)
And I know I'm gonna raise Hell
One mistake after another, I forgot
I do not want you to save me

Boy, I know you love your girlfriend
And she's all you'd ever need
'Cause her love comes straight from source
And I'm a force of social greed
And the doctor said I'm bugging
But I swear I'm gonna choke
If I keep talkin' in circles
We could treat it like a joke

But if I had you
I wouldn't have to
Boy, if I had you
Nah, I couldn't have you

There's nothing left to turn to
I'm puffing on your virtue
Just to wear my crown (See look, I'm a person, I'm a good person)
I took out all the O2
Hollowed out the whole room
Now I can't make a sound (Like are you proud?)
Now my hair is getting tangled
And I gave up on my body, let it rot
I think he wants my spot, boy, just take it (Ahh)
And I know I'm gonna raise Hell
And mistake you for a lover, I forgot (A new persona in Oklahoma)
I do not want you to save me

Now it's pure dissociation
Maybe I'm already dead
'Cause I'm spendin' every moment
With this existential dread (I'm shaking)
And the doctor said it's nothing
But I swear I'm gonna choke
If I keep talkin' in circles
We could treat it like a joke

'Cause if I had you (I'm missin' something)
I wouldn't have to
Oh, baby, baby, if I had you (I'm missin' something)
Boy, I thought maybe I could have you
But I couldn't have you, I couldn't have you

Turn me the fuck up!
Global domination
Your soul is mine (Fatality, mm)
Master
(Money, ugh)
You're listening to—
The masters of the shadows, tell me, dear lady
(Can you see the shadows?)
How will you navigate (He's a monster), an uncertain future
Without—, exclusive content (Shut up)
There is nowhere to run
You are now in a state of suspended animation
Magic, mm
The dark side, death is all you will find here
Evil is being carried on the winds of change
Hahaha, yes, a noble sacrifice
Mm, so real, I know you're a monster, but I love you, I love you
King

This is a message from the twelfth of thirteen (Quiero tenerte pa' mi)
Brakence has been successfully eradicated (Quiero tenerte pa' mi)
We came to the conclusion (Quiero tenerte pa' mi)
That he would rather make selfish art than serve a higher purpose (Quiero te
nerte pa' mi)
So when you hit replay, ask yourself these questions: (Quiero tenerte pa' mi
)
Who are you really listening to? (Quiero tenerte pa' mi)
And where is the line between art and dark magic?
Because that man had no idea

Ooh, ooh
Ooh, ooh

Oh, baby, I only wanted you
I couldn't say it so I'm typin' it on the cue
I fuckin' hate it so I died like a Montague
You think I'm chasin' something, I only wanted you

I found the truth
In solitude
It's concrete proof
That we're all screwed
I only wanted you
I'm eating Lucy in the sky
What you tryna do?
You think I made it? That's a lie
Fuck your point of view
I never say this shit
But I only wanted you
I only wanted you
