brakence

I faked every moment  
I thought I was so much better than that  
I bet you don't think you would do me like that, uh  
My brain decomposing  
They're playin' a grown man, I'm closin' this app  
Bitch, don't think you could do me like that, uh  
Decayin' emotions  
I'm jaded and no one's watchin' my back  
Bitch, don't think you can do me like that, uh  
So I'm takin' the potion  
I'm breakin' the code with a chemical hack  
I bet you don't think I could do it like that  
I'm gone

I've been lookin' in the past for the reason, the devil inside me  
Vision go black, bloodlettin' in white heat  
Ambition apply more pressure to my peak  
Decisions align, I'm ready to dive deep  
If this is the time, just cut out the IV  
Takin' that blade, just do it, Nike  
Find God's freebase, I'm hidin' my IP (You're crazy)  
Motherfucker got a stash just to get on my level and compete  
Clear out my cache and I'll do it in one sweep  
Cashed the gash for a medal, I just weep  
And burn me to ash for meddling, don't cheat  
This is just fate, not bravery  
I found out why suffering tastes so sweet  
This shit ain't love

I faked every moment  
I thought I was so much better than that  
I bet you don't think it would do me like that, uh  
Decay and erosion  
I'm jaded and no one's watchin' my back  
Bitch, don't think you could do me like that, uh  
I can't let it leave, I can't let it go  
Can't heave myself off the pedestal  
I know I needed to let you know  
But I ain't never tried to speak with my chest before  
But in episode two find a Liberty Cap  
Go straight home make the bitter tea tap  
Then God said, "Link make a suicide pact, uh"  
Bitch, don't think you can do me like that, I'm gone

The fleece all on me as soon as the leaves fell  
The road so bumpy, don't got a seatbelt  
The coast so clear but I wouldn't seek help  
You taught me some compassion while packin' a bowl  
I was peekin' through the glass in the back of the show  
You put me on track, I won't slack anymore  
Now I'm movin' way past irrational  
I said ain't it funny?  
Got stung by a honeybee  
It fell right in front of me  
And if I knew well  
Maybe I'll learn my lesson  
Maybe I'll earn perspective

Maybe I'll take a second chance to slam the door to Hell

So I, I, I've been lookin' in the past for the reason, the devil inside me  
Vision go black, blood, lettin' in white heat  
Ambition apply more pressure than my peak  
Decisions align, I been ready to dive deep  
If this is the time, just cut out the IV  
Takin' that blade, just do it, Nike  
Find God's freebase, I'm hidin' my IP  
Motherfucker got a stash just to get on my level and compete  
Clear all my cache, and I'll do it in one sweep, yeah  
Fear my wrath, full metal, I'm OP  
And burn me to ash for metal and don't cheat  
This is just fate, not bravery  
I found out why suffering tastes so sweet  
This shit ain't love, don't pray for me

I faked every moment, I thought I was so much better than that  
I bet you don't think you would do me like that, uh  
My brain decomposing  
They're playin' a grown man, I'm closin' this app  
Bitch, don't think you could do me like that, uh  
Decay and erosion  
I'm jaded and no one's watchin' my back  
Pussy, don't think you can do me like that, uh  
So I'm takin' the potion  
I'm breakin' the code with a chemical hack  
I bet you don't think I could do it like that  
I'm gone (You have failed the mission)  
(Go home and never come back)

She said, "Homie, get a grip", I said, "I'll sleep on it"  
My preponent is a pad, get a peep of it  
Each summer I get happy, 'cause I leave my home  
I be runnin' from my past, it won't leave me 'lone  
Sometimes I wanna get off of the seesaw  
Sometimes I really wish I had amnesia  
If you breathe love miss me with my weak lungs  
If I want a honey, know I'm gonna be stung  
At least once, so you know I gotta keep strung high  
With a hunched back and a tough guy guise  
I miss those days, I would touch their thigh  
Sayin', "It's okay" to convince myself of it (Convince myself)  
All I can do is put the pen to the pad  
They stare at my pattern

The shadows are watching  
Masters of the shadows  
They're watching, they're following us  
They're chasing us, can you see them?  
Because you can't see it don't mean that it don't exist  
Can you see the shadows? They're in the trees  
You are now in a state of suspended animation
